

CENTRAL INTELLIGENCE AGENCY

# INFORMATION REPORT

DATE DISTR: 20 May 1952

NO. OF PAGES 2

NO. OF ENCLS.  
(LISTED BELOW)SUPPLEMENT TO  
REPORT

THIS IS UNEVALUATED INFORMATION

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

1. On 7 Apr 52, using its new long wave station, Radio Prague reported a meeting of the employees of the Biogena National Corporation, which was a demonstration against "American bacteriological warfare in Korea".
2. Biogena [redacted] is quite important as it is the only known producer of antibiotics in any of the Soviet Satellites. As early as 1951, Czechoslovakia was exporting penicillin to Poland, Hungary, and Rumania.
3. Until about 1950, Biogena was not independent, but a part of the State Health Institute (Statni Zdravotni Ustav), a very large organization which centralized medical research and pharmaceutical production, but did not actually engage in the treatment of patients. After World War II,

the State Health Institute was responsible for the scientific work involved in setting up the new penicillin factory in Roztoky u Prahy. [ ] it was in 1950 that the State Health Institute was reorganized and the name changed to State Hygiene Institute (Statni Zdravotnický Ústav). Some of the departments, including Biogena, were given the status of independent national corporations, and some of the work of the Institute was transferred to the military. Even so, the Institute remained under rigid supervision with regard to security and it is still considered an organization of first importance.

4. For many years (and as late as August 1951) the headquarters and some of the laboratories of the State Institute of Health were located in Prague-Kralovske Vinohrady, near the State Vinohrady Hospital (Statni Vinohradska Nemocnice). The Institute was made up of several two and three-story buildings and occupied an area about the size of a city block. The main plant of Biogena was located in Roztoky u Prahy, but even after the reorganization, the management of Biogena remained on the premises of the State Hygiene Institute in Prague-Kralovske Vinohrady.

5. The General Manager of Biogena in August 1951 was Milada (or Marie) Mlcochova, MD

50X1-HUM

6. More important than Dr Mlcochova in the Biogena Corporation was Dr (fnu) Malek, the responsible Communist Party official in Biogena who held the title of Deputy Director.

50X1-HUM

7. Docent (fnu) Raska, another official of the State Hygiene Institute, was head of the Department of Bacteriological Research of the Institute. According to radio broadcasts, he has been the main speaker at various "antibacteriological demonstrations" staged as anti-American propaganda by the Communist regime.
